## SUMMARY

Hello, I'm Kuruba Veeranna, a recent graduate with 76%. Eager to apply my knowledge and enthusiasm to real-world challenges. Excited to embark on a journey of learning and growth while contributing positively to your team. Looking forward to the opportunity to make a meaningful impact.

---

## PROJECTS

### Modeling & Simulation of DC-DC Push pull Converter for EV Application Feb 2023 - May 2023

- The main intension of this project is to provide efficient and sufficient power supply to the Electric vehicles by using isolated Push pull converter.
- Advanced simulation software tools, such as MATLAB/Simulink is used to simulate the behavior of the push-pull converter under various operating conditions

### Automatic Railway Gate Controlling & Signalling May 2019 - Oct 2019

- The main aim of this project is to reduce train accidents and to reduce manpower
  - The primary objective of automatic railway gate controlling is to enhance safety at railway crossings by automating the opening and closing of railway gates based on the approach of trains. This reduces the risk of accidents involving vehicles or pedestrians crossing the tracks.
- 

## EDUCATION

### Bachelor of Technology in Electrical & Electronics Engineering Nov 2020 - May 2023

Anantha Lakshmi Institute of Technology & Sciences

- Specialization in Electrical & Electronics Engineering with 76%

### Diploma in Electrical & Electronics Engineering Jul 2017 - Mar 2020

Government Polytechnic Uravakonda

- Specialization in Electrical & Electronics Engineering with 86%

### SSC Jun 2016 - Mar 2017

ZPH Central School Uravakonda

- with 8.8 GPA
- 

## ADDITIONAL INFORMATION

- **Technical Skills:** Python, SQL, Basic C, Basic Java, JavaScript, HTML,CSS,Bootstrap
- **Computer Skills:** MS Word, MS Excel, MS PowerPoint
- **Languages:** English, Kannada, Telugu
